

Spirit Directed Discipline: Helping Johnny and Susie to Behave

Written for Christian school teachers, administrators and parents, Spirit-Directed Discipline presents discipline from an entirely new perspective. Spirit-Directed Discipline contains practical suggestions from a trained school psychologist and experienced Christian educator. The task of teaching and training Christian young people to behave is much easier when the principles contained in this book are put into practice.

AUTHORS: Drs. Dennis M. and Carol M. Demuth

Central to this effort is realizing that spiritual forces are influencing the inappropriate behavior. Being successful against these principalities and powers requires Christian parents and educators to be fully prepared for battle. They must arm themselves with powerful strategies to cause change in the lives of Christian young people. Following the strategies outlined in this book will help foster a disciplined lifestyle for Johnny and Susie and train them to keep the devil off their back and out of their lives. PowerPoint presentations for staff training and chapels are also available upon request. A CD is available to be used for teacher or parent in-service training (contact DEL for more info). An Appendix provides a listing of classroom management strategies that work to help shape classroom behavior.

Building a Discipline Lifestyle
